AFFAIRS OF THE DISTRICT

A Hearing on the Fourteenth Street Market Proposition.

The Petitions Filed With the Commissioners to Be Verified-A Report Upon the Recent Test as to the City's Water Supply-Other Matters

The Commissioners today granted a learing to the parties interested for and gainst the establishment of a market on Fourteenth Street between V and W Streets northwest. The Columbia Market Company was represented by F. Edward Mitcheli and Charles H. Turner, and the protestants by E. Hilton Jackson and William L. Soleau.

Mr. Mitchell in presenting the case to the Commissioners for the Market Com-pany stated that a majority of the propergiven their approval and that a majority he confronting squares had signed peti

ions for the market.

Mr. Jackson, in stating the views of the protesting property owners, called in question several of the signatures which had been presented upon the petitions and submitted evidence to the effect that some of them had been withdrawn. A long discussion ensued as to the genuine ness of these signatures, and Commis-sioner Ross interrupted the proceedings to ask that it be made a matter of record that the only questions before the board were whether the signatures to the petition were genuine, and whether they constituted a majority of the property

Both sides were patiently heard by the Commissioners, the final statement being presented by Charles S. Turner in favor of the granting of the permit applied for to erect the market house. The Commissioners, after the several statements had been submitted, informed those present that the matter would be taken under consideration as promptly as possible and the

W. A. McFarlend, Superintendent of the Water Department, has forwarded to the Engineer Commissioner a report upon the test made between 2 and 4 o'clock on the morning of April 11 to determine the ademorning of April II to determine the adequacy of the water supply system for fire protection in the vicinity of Eleventh and F Streets northwest. The tests were made on the plugs in the territory bounded by E. H. Nihith, and Thirteenth Streets. The distance of the plugs tried from the corner of Eleventh and F Streets ranged between 250 and 1,000 feet. A pressure gauge was attached to the hose connections and this registered an effective pressure, ranging from 10 to 21, on a coefficient of discharge taken at .6, the diameter of the opening being 2½ inches and the length of the tube on the plug 2 inches. The discharge at the fifteen plugs tested was found to be from 210 gallons to 505 gallons per minutes, with ten pounds additional pressure the discharge was found to be from 502 to 720 on a coefficient of .72.

The conclusion of the report is that these fifteen plugs could simultaneously deliver 8,000 gallons of water per minute. This would furnish water for thirty ordinary fire streams.

The District Commissioners have approved the recommendation of J. W. Danel, the special assessment clerk, upon the application of Charles C. Reed, of 613 Fif-teenth Street northwest, who requested the remission of interest and penalties on a special assistment against sublot 41, square 797. The recommendation was to the effect that the assessment was levied under the act of the Legislative Assembly, and that this act has been declared void because it contains no provision for ad-vertisement of the intended work.

John B. Brady, the Inspector of Build ngs, has submitted to the Commissioners a schedule of proposals for the construc-tion of a school building on the southeast tion of a school building on the southeast corner of Lincoln Avenue and Prospect Street northeast, known as the Eckington School. Mr. Brady informs the Commissioners that the lowest bid exceeds the amount avallable for the erection of the building by about \$10,250, and for that reason he advises the rejection of all the bids. He further recommends that the sarchitect be requested to modify the plans and specifications so as to bring the cost of the building within the amount of the appropriation. It is understood that the Commissioners will approve the recommendations and that proposals will be asked for again at a latter time.

THREE YOUTHFUL PRISONERS.

Boys Convicted of Participation in a

Moonshine Distillery Business. Three youthful prisoners were brought o this city last night, by a United States Marshal, from North Carolina, and lodged over night at the House of Detention.

Two, Bennett and Luther Hollman, fifteen and sixteen years old, rescentive when the sixteen was sixteen to be a sixteen when the sixteen was sixteen when the sixteen was sixteen was sixteen when the sixteen was sixteen when the sixteen was sixteen was sixteen was sixteen when the sixteen was sixte ectively, who were convicted of filledt istilling of whisky near their homes at freensboro, N. C. Bennett and Hollman Greensboro, N. C. Bennett and Hollman were sentenced to one year in the Reform School in this city and the man, under whom they were working, was sent to the penitentiary for six months.

The third prisoner was Fletcher Evans, colored, twelve years old, who was convicted of having stolen 50 cents from the postoffice at Gibsonville, N. C. Evans was employed in the depot at Gibsonville and carried the mail between the postoffice and the station. He maintains his innocence, but is under sentence of one year of imprisonment at the Cheltennam Reformatory, St. Mary's County, Md.

A DELICATE CHILD

Let a delicate child take a little Scott's emulsion of codliver oil after breakfast or dinner-not too much-too much will upset the stomach. Better too little than too much.

The effect will be slow; it ought to be slow. In a week, you will see it began the first day. Don't be in a hurry.

CADETS IN SHALL BATTLE. The Annual Parade of the High

School Regiment. The annual dress parade and sham batle of the High School Cadet Regiment will begin this afternoon at 4:30 o'clock on the White Lot. Much interest is being manifested in the affair and a large crowd will witness the evolutions of the young

will witness the evolutions of the young soldiers.

The regiment will assemble at the corner of Thirteenth and H Streets, and each cadet will there be supplied with twenty rounds of ammunition. Then, headed by the Marine Band, which the Secretary of the Navy has ordered to furnish music for the occasion, the column will proceed to the White Lot. The first thing on the programme will be a review, when the band and regiment will pass before Gen. George H. Harries and staff, who will be stationed at the north edge of the ellipse. The sham battle will follow. The regiment will be divided in half. One battalion will repair behind the Monument and will later attack the other battalion which, it is supposed, will be fortified at the northern edge of the ellipse. All the ammunition will be used up and then a charge at the point of the bayonet will be made.

RECOVERS THE USE OF HIS ARM. Robert Richardson Survives a Seri-

Robert Richardson, one of the attend-ents in the bathrooms of the House of Representatives, who was stricken with paralysis about a month ago, has suf-ficiently recovered to be able to resume ds labors.
